Mahonia Aquifolium

(Oregon-Washington Holly-Grape)

A very beautiful evergreen shrub with large glossy leaves and yellow flowers conspicuously appearing in the spring and followed by dark blue berries; a most satisfactory broadleaved evergreen for any place in the United States.

1 Yr. seedlings, *Mahonia Aquifolia*,
field-grown, row run, 4-6",
\$35 per 1,000; \$5 per 100

TRANSPLANTS—We are offering one year transplants, root pruned, in both *Mahonia Aquifolium* and *Mahonia Nervosa* at \$15 per 100.

Mahonia Nervosa

(Low-growing Oregon-Washington Holly-Grape)

This dwarf growing *Mahonia* is also a native of Oregon and Washington and is very useful where low growing shrubs are needed. It grows 15 to 18 inches and is even more beautiful than *Aquifolium*. Can be used for ground covering or as specimen plants.

All orders shipped the same day they are dug.

SEEDLINGS are muddled, then packed in moist shingle tow and wrapped 100 to the bundle in waterproof paper. They are then packed 1,000 seedlings to the crate, weighing approximately 55 lbs.

TRANSPLANTS are packed same as seedlings and wrapped 25 to the bundle. They are then packed 250 plants per crate, weighing approximately 65 lbs.

TERMS—Check is requested before shipment; or will ship C.O.D. if preferred. All orders shipped by Railroad Express.
